Our history.

William Angliss, philanthropist and original owner of Marnong Estate, purchased Marnong Estate in 1874 and developed it into a prosperous sheep and cattle farm, as well as a centre for agricultural research and innovation.

Our 1840s Victorian-era Homestead (pictured left) has been restored to its formal glory (pictured right). Originally constructed using locally sourced bluestone, the building retains its traditional charm by showcasing one-of-a-kind ornate details.

Our today.

Today Marnong Estate stands as a testament to the original owner's vision and legacy as a pioneering businessman and agricultural leader.

Featuring an executive boardroom, breakout and lounging space, a kitchenette, and four elegant accommodation suites, our Homestead is ideal for executive-level retreats, intimate meetings, and gatherings in a beautifully designed setting.
